

The Snowville Town Council held its regular meeting at the Snowville Town Hall on April 12th, 2023

Mayor Scott O'Hare  
Jim Beagley, Council Member  
Rod McGary, Council Member  
LuAnn Johnson, Council Member  
Brent Johnson, Council Member  
Stacey Hill, Deputy Clerk  
Tammie Morgan, Clerk

Keith Thompson, Carol Thompson  
Kurt Ward, Tyson Green  
Collen Hansen, Jed Pugsley  
Kacey Smoot, Emma Smoot  
AJ Morgan

Mayor Scott O'Hare welcomed everyone attending the Snowville Town Council on April 12th, 2023. He started the meeting at 6:10 p.m. after the Public Hearing for the Budget for 2023-2024. Mayor O'Hare stated that Brent Johnson we lead us in the pledge of allegiance and Stacey Hill would say the opening prayer.

Mayor O'Hare asked the members of the audience if you are going to speak would you please come up to the front of the room and state your name, we only have this recorder here and that is all that we have to hear you with. When we do the minutes Stacey will be able to hear you for the record. Stacey thanked the Mayor for that.

Mayor O'Hare asked the council if they received the agenda and minutes from the last meeting. Mayor O'Hare asked for an acceptance of the agenda for this meeting on April 12, 2023.

Rod McGary made a motion to accept the agenda for tonight's meeting. LuAnn Johnson 2nd. All Council members were present. Voted Yes

Mayor O'Hare asked the council for a motion to accept the minutes for March 2023 meeting.

LuAnn Johnson made the motion to accept the minutes for March 2023 meeting. Jim Beagley 2nd. All Council members were present. Voted Yes

Mayor O'Hare stated that we have two resolutions 2023-04-01. The ordinance number is 10-12 subsection D. This ordinance is one we discussed in our February meeting. This ordinance is a criminal offense. So we can proceed forward with the ordinance, with the attorney. This ordinance is the one about people living in travel trailers. This will be a criminal offense, original we passed it we had it in subsection D, the prosecuting attorney came back and asked if we

would change the wording, and make that its own subsection. We need to make an amendment to the resolution that wording that we added, instead of adding it in subsection D, will be concern subsection E, and it will be its own subsection. Mayor O'Hare asked for a motion to accept its own subsection.

Rod McGary made the motion to accept Subsection D to Subsection E. LuAnn Johnson 2nd. All Council present voted. Yes

Mayor O'Hare stated that we have ordinance 3-2-12, Mayor O'Hare stated that he sent this to the council in an email about Sunday Alcohol Sales. Mayor O'Hare asked the council when they read it did they have a comment on that. Jim Beagley stated that he did. He was very confused about it. To sell beer on Sunday. Jim stated that he didn't see where it said anything about selling beer on Sunday. Mayor O'Hare agreed. Mayor O'Hare asked Stacey if we have a resolution for that ordinance. Stacey stated that Tammie said the county back in the day, that is when they didn't sell beer on Sunday, and the town piggybacked on it. Stacey wasn't sure of the 411 on this matter. Mayor O'Hare stated that when he read the ordinance, The state states that you can't sell Class A beer on Sunday all that it said is that you can't sell liquor, on Sunday. LuAnn asked if it was Class D or A. Mayor stated A. Mayor O'Hare stated that Class A our the beer sales that we have in town for beer being sold at a gas station, or gasoline. These are both places that we have in town. Mayor O'Hare stated that it never said anything about selling beer on Sunday. But we have made a resolution for both businesses to sell alcohol on Sunday. Mayor O'Hare stated that the businesses can sell beer from 12:00 noon to 12:00 midnight, It also reads in there that Class A beer can't be sold between the hours of 1:00 a.m. to 5:00 a.m. But both of our stores don't sell beer until 8:00 a.m. Mayor O'Hare stated that if the businesses wanted to sell beer at 5:00 a.m. they could because of how our ordinance reads, which says they can sell beer from 5:00 a.m. to 1:00 a.m. Only Monday through Saturday, but on Saturday they have to stop selling it because it is Sunday morning. Mayor O'Hare wanted to bring that to the council's attention. But as of right now, they are selling beer from 8:00 a.m. to 1:00 a.m. Then on Saturday midnight, it stops until 12:00 noon, then midnight until 12:00 midnight. Mayor O'Hare stated that we are working on a letter for both businesses. Mayor O'Hare wanted the council to be aware of that ordinance.

Mayor O'Hare stated that the next item on the agenda was the annexation into the town of Snowville. Mayor stated that everyone is aware of the new county code. The new code is ½ of a mile in our boundaries, if someone wants to build they must go to the town of Snowville first to petition first the town of Snowville and ask for services, if the town doesn't decide to annex them in the town then they would have to the county and the county would give them the building permits. If Snowville decides to annex them into the town, then we would agree to annex them into the town whatever the property part is making the town of Snowville bigger, and then we would take care of the building permit. It has to be ½ mile around the town. Mayor O'Hare stated that he talked to the county Tammy Gibson and she explained to Mayor that there was a petition, that we put at the town hall for anyone that lives in the area because we actually have a petition tonight from Kacey and Emma Smoot to be annexed into the town of Snowville. They are going to build a home on their property just outside of the town's limits and they are asking

the council tonight for annexation into the town of Snowville. Everyone lives around them. Outside of the town's limits. Mayor received a letter, and so did Collen Hansen because she has property close to the Smoots. Mayor O'Hare stated that we can have a petition that states that we don't want them annexed or we don't mind. But it doesn't make the decision of the town council, it just lets the town council know that there are people who want to be annexed. Once they are annexed it pushes that ½ miles boundary closer to the next person it might be 200 feet. But now they get annexed it is moved 10 acres, or whatever the footage is. Mayor O'Hare stated that the town has been asked by the Smoots to be annexed into the town of Snowville. They have 78 acres but they are not requesting the whole 78 acres to be annexed into the town. They are only asking for the 10 acres to be annexed into the town. For the record the Smoots already receive town water. So now the council needs to decide to approve or deny the annexation of the Smoots. Mayor asked if Kacey Smoot had anything to add to what he had said. Kacey said that they would like to be annexed into the town of Snowville. Kacey Smoot stated that their home will be built on the right side of the barn that is already on the property now. Mayor O'Hare asked the council if they had any questions for the Smoots. The council said no. Mayor O'Hare asked for a motion to annex the Smoots into the town of Snowville.

LuAnn Johnson made the motion to annex Kacey and Emma Smoot into the town of Snowville. Brent Johnson 2nd. All council members that were present voted. Yes

Mayor O'Hare stated that next on the agenda was the traffic light update. He stated that as everyone can see that the traffic light is up and it is working. It had been working for over a week now. The people at Mollie's Cafe have already noticed a difference. People are stopping at the stop sign. The town is still waiting on the invoice from the company that put the stop light in. Then we can be reimbursed by the Mayor's Association. They gave us the money to do the traffic light. Some of the council members stated that it looked great and you can see the light flashing from far away.

Mayor O'Hare stated that next on the agenda was the Easter Party update. We had an Easter party last week. There was a good turnout the kids had a lot of fun. Everyone on the council agreed that it was a great turnout. Mayor O'Hare stated that there were probably about 60 or 70 kids there. They love the cookies from Kent's. Mayor stated that they have some ideas for next year to try out.

Mayor O'Hare stated that next on the agenda was to point an emergency Manager. The former Mayor was the Emergency Manager, and now we need someone else because she is no longer with us. Mayor O'Hare stated that he has been taking care of it. Mayor stated that he feels like we should appoint someone to that position. LuAnn asked what is titled in the job. Mayor stated that they will be working with the County and the State. In case we have a catastrophe or an emergency in the town, they will be the ones that will coordinate with the Mayor if something happens. Mayor O'Hare stated about three weeks ago we had a lot of wrecks on the freeway doing a snowstorm on I-84, within a 15-minute period we had 7 wrecks with 4 of them with injuries. When Mayor came by the firehouse we had 5 or 6 patients in the firehouse.

Mayor stated that Jed was out on the scene taking care of the matter. Mayor O'Hare stated that we learned something that we could have done differently, we could have put the patients in the town hall instead of the firehouse office because it is so small. It is just someone that will oversee the town in case of a catastrophe. LuAnn asked so they have to be a council member. Mayor said no they don't. LuAnn animated Collen Hansen. Collen Hansen stated that she doesn't have the personality for the job. Everyone laughed. Mayor O'Hare stated that he would be asked Chief Pugsley to be the Emergency Manager. Since he would be there on the scene anyway. Jed stated that he will have to look it over. LuAnn stated that he should have our phone numbers so we could come and help if he needed. Jed stated that he needed everyone's number when it flooded. Mayor O'Hare asked the council if they would want to put anyone else name in the hat for that. LuAnn stated that maybe Kacey Smoot. Brent stated that Kacey is away from home a lot. Colleen Hansen stated that she thinks that Jed Pugsley is the most qualified if he is willing to take the job. LuAnn asked if they get paid for their hours. Mayor stated that it is just volunteer. It is not a paid position. Mayor stated that he will talk to Kacey Smoot tomorrow, we will table this until May's meeting.

Mayor O'Hare stated that next on the agenda is to point a Pro-Term Mayor. So we have someone in place in case something happens to Mayor O'Hare. Jim Beagley nominated Rod McGary. Mayor O'Hare stated that he was thinking of Rod also. Rod took over last time when Mayor was sick.

Mayor O'Hare asked for a motion to have Rod McGary be the Pro-Term Mayor. Jim Beagley made the motion for Rod to be the Pro-Term Mayor. LuAnn Johnson 2nd. All council members present voted. Yes

Mayor O'Hare stated that next on the agenda is to take down the Christmas lights, Mayor asked when would everyone be available to help. Saturday the 22nd after the dog licensing at noon.

Mayor O'Hare stated that next the 4th of July is coming up. Mayor stated that he sent everyone an email with the prices and the selection of meat from Lower's food, where we usually get our food from. The council members stated that they didn't get the email, Mayor stated maybe he forgot to send it. Mayor stated that the prices have gone up a little bit. We usually get pulled pork and BBQ Chicken. Mayor stated that we had done the same thing for the last 5 years, and he was wondering if the council would like to do something different this year. The mayor read off of the list of other choices. Mayor said that he will resend the email. Rod McGary suggested Fired Chicken from Kent's. If you would like to have something different. Mayor stated that he will talk to Kent's and get prices. Mayor stated that he will have prices for the next town meeting.

Mayor asked the council if they wanted to do bounce houses, he would like to get things in place. So we can work on it. Jim stated that he didn't like the bounce houses. We should come up with a theme and go from there. Think about it and bring it to the next town meeting. Then we can put it on the agenda and then we can vote on it and it will give us town months to put it together. Tammie stated that she doesn't think that you have to vote on it. Mayor stated that he needs to have a budget for the 4th of July. Jed asked if we were going to have fireworks, Mayor said yes if there is not any restriction.

Mayor stated that on Monday he attended the Mayor Association meeting in Elwood. The Mayor's Association meeting for Box Elder County. Mayor stated that he met with other Mayor's from Box Elder County it was their quarterly meeting. The Mayor's Association is the one that Mayor Heyder received the money to get the traffic light. This quarter the Association approved funds for other towns. They approved money to help the county put in corridors with new streets. They approved money for Mantua for a new intersection. They also approved the town of Perry 1.78 million to buy three properties. The new corridor will go from Walmart over to Highway 89. They will meet in October and Mayor would like to get permission from the Council to start the applications to get money for Snowville Town. The money is for construction and beautification. Mayor would like to apply and see if we could get money for the Cemetery. We have some problems that need to be taken care of at the Cemetery. It would be nice to get some money for the Cemetery. The other one is that Mayor would like to see if we could get money for our bridge. Mayor informed the council that we didn't receive the money from the grant. Mayor stated that they through in another restriction, and they basely changed the rules in the middle of the process. Everything was submitted right and on time. Mayor stated that he wasn't very happy about it. Tammie stated that Brian Carver is going to come out and have a meeting with the Mayor. Tammie stated that Brian was out of town because his father passed away. Tammie stated that the BRAG said it was something to do with the public hearing. Tammie stated that she had sent the wording and the actual paper to Brian to look over and he said it looked good. Get it submitted, Tammie said she didn't know what happened. BRAG said that the dates were wrong so it kicked us out. Brian stated that he had found out that they had changed the rules in the middle of it. Mayor stated that this was the second time that they did this to us because it happened last year also. Tammie stated that we had a good relationship with the lady at the State office but now they don't work there. LuAnn stated that she needed to contact Nicholas Clark about getting funding somewhere else. Eric contact us also and he is looking into funding some grants also. Rod asked can we replace the bridge the way that we want to. LuAnn said no because it is a State bridge. Tammie said that Eric is going to contact the State to see if there is any funding available. LuAnn stated that it has to be under an engineer because it is a State bridge, we can have input. Mayor stated that we need to get on the 2025 schedule for the bridge. Mayor O'Hare asked if it is ok with the council he would like to try to get money from the Mayor's Association. Rod stated that Chandler that is on Mit Romey's team when he came out he told the council that he would help the town with whatever was needed. Mayor O'Hare said that he would contact him and talk to him about the bridge. They are going to start the water master plan Mayor said that he will talk to AJ more about this, to make sure that we have a plan in place. It was more with irrigation Mayor thought.

They also talked about a countywide drainage system, for flooding. They talked about a 5th bill that Snowville could receive \$30,000.00 and not have to apply for it. Monday the 17th they are going to have a meeting for the district fire departments Tremonton, Garland, and Brigham are having the same problem and we are they want to do a countywide fire study there are strong feelings on both sides of it. The town will have to put in money for this study. Jed talked with the county fire marshal and the county isn't going to do anything with it right now because they don't have the funding for it. Mayor stated that they are having a meeting next week and need someone to represent the town along with Jed the Fire Chief because he is not available to make the meeting. Mayor stated that someone from the council needs to talk to Jed and see if it is beneficial to go to this meeting on Monday. Mayor stated that they have five towns that are committed to this fire study, and the bids are up to \$70,000 to \$90,000 dollars. Jed stated that it will be charged based on the population of the town. Jed stated that his personal option is that Snowville with not get very much out of this study. Mayor asked Jed what his option was about this study because other towns have opted out of it. Jed stated that it probably wouldn't be great for Snowville Town. Jed stated that is his personal option. The council agreed with Jed and Mayor asked him to notify the person that needs to be notified that we aren't interested. Jed said that he will call and let them know that Snowville Town opted out of the study. Mayor stated that there is a new fund that is going into effect, it is called a trail fund. There is money for towns that want to put in trails. That is not just trails in the mountains it is bike lanes. Mayor stated that it would be cool to have a two-lane bike trail off the main Stone Road where we can have lanes for bikes or walking off the highway if we have enough space. They are looking for a trail czar to oversee the trails for the State. Rod stated don't we have trails where the Pony Express came through the Valley. Are there trails marked where the Pony Express stopped? Rod stated that Garn Larkin told him stories of where the stop was. Rod stated that we could have markers along the freeway where there were historical sites. Rod also stated that Garn told him that there is a cave that is really small up by the mountain where the Stagecoaches would stop for the night because it was a 3-day ride to Tremonton back then, but it is on private property now.

Mayor stated that the next item on the agenda was the new County Building inspector Cody Ilyum, For those that don't know the one building inspector Steve Bench has retired. The contract with the old building inspector is now done. Kurt Ward and Tyson Green are here on behalf of Cody. They are also inspectors for the County. Kurt Ward gave the Mayor the paperwork for the contract. Kurt stated that they are taking over for Steve Bench who retired in March, and the city needed a building inspector, Tyson, myself and Cody are the county inspectors and we are here to present this contract to the town. There is a fee schedule in the contract, they are not sure what Steve was charging the town. There are additional things that they do like solar panels, Kurt stated that they are here to help the town out when they need us. Kurt asked if the council had any questions. Tammie asked if Tremonton City was also using the county. Kurt stated that Tremonton City has hired an out-of-town person to inspect the stuff that needs to be inspected. LuAnn asked if you guys are just available from the small towns and the cities. Kurt said yes. Tammie asked if they would the town to sign the contract. It will be for one year. Steve Bench had several little towns that will have everything outside of Snowville city limits. Because the lines are a jigsaw puzzle. They have taken over Howell,

Cornie, and Dewyville, they are working with Fielding right now, and Plymouth is still figuring out what they want to do. Tremonton is on its own. Elwood has contracted with them also. LuAnn asked how can Tremonton be on their own. Kurt stated that they have a contractor Kurt stated that the town will get 25% of the permit fee, they will get 75%, then takes care of our fuel and our time. There is also a permit fee. That will take care of all of our fees, and the town will get 25%, Rod asked about the travel fee and Kurt stated that will go to the person getting the inspection. Mayor asked so there is no charge to the town this is just a contract that they will provide the services for the town. The fees go to the individual that is getting the building permit. LuAnn asked if you have an upgrade on your electricity then you have to have one of you guys come and look at it before Rocky Mountain Power, will turn it on. Kurt said yes they have to look at it before Rocky Mountain will even touch it. Mayor asked if we need to make a motion to pass the contract. Tammie asked if the council wants to look at it closer and then sign it.

Mayor stated that next on the agenda is the Box Elder County Sheriff's Department we have a new Sheriff it is SGT Edditon who is out of Park Valley he is assigned to Snowville. He text Mayor right before the council and said that he wasn't going to make it tonight. He told Mayor that he was going to email him the report of the calls that the Department have responded to and Mayor will email them to the council.

Mayor stated that next on the agenda is Eric and he also called Mayor and told him that he wasn't going to make it tonight either. Eric is going to contact the contractors that put in the light and have them get their invoices over to us so we can pay them for the traffic light. So we can get the money from the Mayor's Association. The Mayor's Association has asked us to get the ball rolling because that money is already allocated to the town. Mayor talked to Eric about the two stop signs that were also in the project. The only thing that we are working on is the corner by Mollie's. Eric was going to contact UDOT about the bridge that we didn't get the grant, for and if we can be put on the 2025 list.

Mayor stated next on the agenda was the Fire Department. Jed stated that he has had some people reach out to the fire department we might have three people. Jed is trying to get some additional training going. Jed stated that it is not the amount of people that we need but it is a start. From January 1st to now the EMS and Fire have received 41 calls. It has kept them busy. Jed stated that burn permits are open from the 30th of March to the 30th of May, people in the city limits need to call Jed and ask him if they can have a burn permit. The people in the outer limits need to call the county. Mayor stated that permits are free, but they need to let Jed know they are having a fire. That is no garbage burning. It is only leaves, sticks, and stuff like that. Jed stated that they will have a training fire in the pits up by the campground, which is an eyesore. The Fire Department has an agreement with the new owner Ches Burmester to burn the pits. Jed said that if they burn it out that Ches will push dirt back into it, so there is not a big hole there. Mayor stated that they will make sure that there is nothing hazards. Jed said yes. We will burn it same time before the end of the month. Mayor asked did Ches say how long that

it would be for him to fill the hole back in. Jed said that he didn't. Mayor asked Jed if he would find out how long it would be before Ches filled in back in. Jed said on the EMS side Dave is not here, the ambulance we have pictures of it. It is down in Florida, it is being shipped to Salt Lake City, they are just working on the graphic package they are working on the radios also. Are an old ambulance it is 2005. It is starting to get a little bit tired. Jed stated that it looks really nice, it is blue with graphics on it. Jed stated that they are hoping to have it for the 4th of July so they can have it in the parade. Tammie asked when was the new ambulance going to be here. Jed stated that it was supposed to be here by the end of April but it has been delayed. LuAnn asked if they were short on EMS, and Jed stated yes, responder 7 or 8. Mayor asked if the cot had been fixed. Jed said that it had and is working great. Mayor stated to let him know if they are going to purchase a cot because he will go to the Black Pine Mine and ask them for some money to purchase it. They have offered to help the town out with things that it needs. Because we will be responding to their mine if something happens. They also said if they would have known that the town was buying a new ambulance they would have bought us one. Mayor stated just let him know and he will make an appointment with them. They are trying to decide if they are going to keep the old ambulance they are running into some storage issues. They are trying to get it figured out. Jed stated that about a year ago he talked with the council about an M.O.U. with Onedia County for fire service the county is actually taking that over. Cassia, Oneida, and Box Elder County are working on the M.O.U. right now. It will go through the Fire Marshall's office, then we will have the legal authority to go outside the state line and help.

Mayor asked Tammie about the Building Inspector, Tammie stated that we need an inspector and she thought it would be good for the town. Mayor asked if the council had any questions. They said no. Mayor stated that after the council he can sign the contract. Mayor asked for a motion to accept the contract for one year. Rod McGary made a motion to accept the contract that the county has for a building inspector. LuAnn Johnson 2nd. All council members present voted. Yes. Kurt stated that you will need to have the attorney look it over to make sure it is ok for the town.

Mayor stated that next on the agenda is the Town Clerk, the budget for 2023-2024. Tammie asked the council if they had any questions. If you want to make any changes to it before the next town council you can. Tammie stated that we will put it on the agenda for approval. Mayor told the council to look to see if there is any changes that they would want to do, then we have to fix it next town council.

Mayor stated the next on the agenda is the town Treasure. Opening and Closing of meetings. Stacey stated that Tammie will send you a link to that and you will need to go to the website and watch the videos. Rod asked if we needed the certificate, that is after they are done. Stacey stated yes and to send them to the Snowville town email.

Mayor stated that next on the agenda is Council Member Rod McGary. Rod stated that he didn't know of any water issues.

Mayor stated that next on the agenda is Council Member Beagley. Jim stated that some of you are aware of the goats that have been on town property and neighbor property. Jim stated that he had sent a registered letter to the person at Folt it was signed by the person who has his mailbox and they told Jim that he comes in about every two weeks and they will give it to him. He is violating one of the codes Animals at Large. Jim stated that he could impound his goats if he wanted to when they are on city property. But we don't have any facilities for them. Jim stated that we would have to feed them and everything else. Mayor stated if it is ok with the council instead of waiting until the end, where it says public comets. The reason that it is brought up is that the citizens are here to address the council. Keith Thompson stated that the goats were turned out on the snow-covered pasture several weeks ago, they were very hungry and destroyed 30 feet of the south side of a 40-year-old evergreen hedge, on the Thompson's property, The Thompson had to cut and haul away a trailer load of died hedge. Keith stated that Jim Beagley can back him up on that. Keith stated that they repaired and replaced the fence. They have stripped off the bark of trees because they are so hungry. Keith stated that they haven't had time to fix the trees yet. Due to the goats running free, they are in the driveway and the Thompson have to stop whatever they are doing and chase them off, then run them off 3 to 6 times a day. It has improved with the fields getting a little greener. But what is going to happen next Fall and Winter? In the Spring are we going to have some battle with the goats? They frequently jump over the fence into our back acreage, we understand that animals do that sort of thing the bad story is that Will was told no when he asked to use the back fields, we explained to him that we have had bad experiences in the past letting people put their livestock on our property they always had damage to their fences and it has never turned out to be a good thing it has always cost us money. The Thompson do that thing anymore. Will doesn't take no for an answer, and we don't want the liability for his animals, we feel that he has deliberately not fixed the fence between us that separates our properties. But he has put cross-fencing in that does absolutely nothing, and now this decision. We are getting kind of sick of it it started off when he had his turkeys, and Stacey and her family have had problems with the turkeys while everyone has been trying to be patient they have costed damage not only to our property but to our other neighbor's property. The turkeys scratched the hood of Shawn Jensen's brand-new truck. Shawn went and talked to Will about it, and Will told him tuff luck it is up to you to fence them out of your yard. Keith stated that Will has never had an animal that has not been a nuisance or destructive of some sort. Keith stated that if you made a wrong move the turkeys would go for your face. He is dead serious, Keith stated that he wants to be good neighbors, but sometimes we have to stand up for ourselves. That is why were are asking the town for help with this matter, for the ordinance to be made a little tougher. Keith stated if the goats get into Simon's grapes, he will not be as nice. Keith stated that we feel the town has tried to be fair with him. Keith stated that the town has been very supportive of us. Keith would like to thank Jim Beagley he has gone out and researched other communities and what they have had to do with this particular problem. Jim has really made some efforts he has gone over and tried to talk to Will serval times and Will just talks away for him, like he can hear him. Keith stated that he knows the man can hear. Basically, we think that penalties and compensation, with this ordinance, put some teeth into it. Because if the homeowners can't do anything about them, Keith stated that he can't shoot a gun at them and get rid of them. Keith stated that he has a crossbow and he would like to use that but he has been told that he would get in trouble if

he did that. Keith stated that something needs to be added to the ordinance, we are not looking for compensation for the damages that have already been done to our property and we have tried to work and get it fixed. But, it is not going to end with us. If he would just put up the fence, the other day we were in the backyard, and they have seen that he had a roll of fence 6 feet high, and they were hoping that he would put it between their properties but he put it on the street side, nothing by Keith's side, Carol stated that we don't want to be mean to the animals. Jim stated that the ordinance is very vague when they are city property. Jim stated that the town's ordinances need to be changed. Mayor asked does the ordinance say that it is a nuisance. Jim stated that it didn't. Jim stated that it talks about dogs and stuff but not livestock or any nuisance animals. Mayor stated that we can file an ordinance violation, and we could take him to court if it is an nuisance. That is why we had to change the other ordinance because there was nothing that the attorney could do about it. Colleen Hansen asked how can he get that many goats anyway because he is only a lot so many per acre. Mayor stated that he thinks he has 5 acres. LuAnn asked how many does he have? Jim stated that he asked him how many animals he had and he just turn and walked away. Jim stated that he put the fence on the wrong side and they can walk through it. Jim stated that he will not listen to anyone unless you do it his way. Mayor asked in the meantime if there was anyone that will lease their property for these goats. Jim stated that will cost the town money and that we should not have to do that. Someone stated that he has 5.09 acres so he is only supposed to have five goats. He has more than five goats. Mayor asked Jim to write up something to add to the ordinance that we have now and bring it next meeting for the council to go over. Jim stated that the State of Utah is fenced in and Box Elder County is also fenced in, the city is also fenced in. The only place in the State of Utah is where there is opened range. Carol Thompson stated that the old motorhome is parked on town property by Buckingham's property and that sometimes at night there are lights on in the motorhome, maybe someone is doing drugs because it is in the middle of the night. Mayor stated that he will find out who it is and tell them that it needs to be moved immediately. Tammie stated can't you call the sheriff and have them mark it and then have it towed. Mayor stated that he will take care of it after the meeting. Keith and Carol Thompson thanked the council for their time. Jim stated that we are having dog licensing on April 22 at the fire station from 10:30 a.m. to 12:00 p.m. Jim stated that he wrote something up to put in the water bills that every dog in Snowville town limits has to have a rabies shot or a waiver from the vet stating why that dog can't be vaccinated. The vet charges \$15.00 per shot and the town charges \$5.00 per dog. Mayor stated that maybe for next year that we raise the dog license to \$10.00 per dog and if they don't come in on that day or before they will have to pay a fee of \$15.00 per dog.

Mayor stated that next on the agenda is Council Member LuAnn Johnson. LuAnn stated that we have some roads that need to be fixed. The road on 100 East, 200 North the road had flood damage. Road 250 East by the school has flood damage. The Stone Road 600 North we need it fixed there, then Cemetery Road, the road by Simon's vineyard needs to be fixed there are potholes that need to be filled. 600 West Rod stated that there is some road damage there. Tammie asked if the County was going to send us a bill for the gravel that they put in Potter's Hollow. Mayor stated that they would. Rod stated that Beehive said that when they put in their infrastructure that if there needed repairs done that they would take care of it. Rod also stated

that Cemetery Road was washed out because there was soft dirt from the cable. Mayor stated that he will call Beehive. Tammie stated that you might want to get a rough estimate because we don't want to get this huge bill. Mayor stated that this problem needs to be taken care of immediately. Brent stated that he can call them and then take them around and show them where the damage from the flood is.

Mayor stated that next on the agenda is Council Member Brent Johnson. Brent stated that there are 9 broken sprinklers that have been ran over, two sprinklers are missing, and he can only find a hole for one. On the south side against the fence, there are sprinklers that were never drained so they are probably all broken. Brent stated that Kay Harris' headstone was probably under 10 feet of ice. That's when he called Mayor and Gwen just went up and shut the switch off. No one winterized the system so we probably have a lot of pipes and sprinklers broken. Rod stated that several graves needed to be filled in. Brent stated that he backfill on graves there are seven graves that needed to be filled. Tammie state that Shanna might know who set Letty Petersen's headstone because it is sunken into her grave. Brent stated that Debbie Smith's grave had sunk in also and Brent stopped and talked to Dennis and he went up and raked it down. Mayor stated that we are not responsible for the headstones the town is not, it just keeps the graves and Cemetery looking nice. The family has to come and move the headstones we are not responsible for it. Colleen Hansen stated that Doug Cottom is her son and if we get ahold of him and talk to him about her headstone. Colleen Hansen said that she would get ahold of him for us and get his permission to fix her headstone. Mayor stated to have him call someone on the council so we can get his permission to fix her headstone. Jed asked if there were any weeds to burn. Brent said that there was one strip behind those buildings. LuAnn said that there are a few in the front also. Brent stated that he has talked to Rod Arbon to come with the tractor and backfill those graves that news to be filled in, Brent counted 7 graves that needed to be taken care of. Mayor stated that he talked to Shanna Terry and she will be the notary for the town as well as the sexton. Mayor stated that no one has applied for the Cemetery job. The mayor suggested looking at the budget and seeing where we can move money for the Cemetery to fix the sprinklers.

Mayor stated that we need to have three bids for the sprinklers.

Mayor asked if there were any additions to the expenses. Stacey stated that IDAWY, Fuel network.

LuAnn Johnson made a motion to accept the expenses with the additions of the garbage bill and Fuel Network bill. Rod McGary 2nd. All council members that were present voted. Yes

AJ Morgan stated that he needed to talk for a minute about water. He stated that he has had two people come to him in the last few days about Richard Nicholas up on Cemetery Road. On the corner across from Oman's, he has a water meter. He is running that water from that meter

out past the Cemetery to a trough. Plans are he is planning to run more lines which AJ doesn't think is a big deal and put more troughs up there for his cows so they don't have to walk so far for water. AJ said that when it goes through the meter he doesn't care where it goes. AJ stated that two people have contracted him saying that on the back side, there is a piece of leased ground and Richard is supposedly going to run water over to the leased ground. This means the people that have been lessing the ground are going to lose the lease. AJ understands that you can't run the water over to the leased ground. AJ just wanted the council to beware of what is going on. Mayor stated he can run it on his own property but not someone else's. AJ said that he will go talk to Richard to see what his plan is. AJ stated that if we get short on water that will be the first one that he will shut off.

Mayor asked for a motion to Adjourn. LuAnn made a motion to Adjourn. Rod McGary 2nd.
